Note: The existing validation that Service Program fields can be edited only when record is in “Draft” or “Need More Information” will stay as is for all other fields.

1.2.1 Slated KEE Suite Enhancement

Starting July 22nd, the sync logic will be updated such that:

- If “Challenges/Stressors” is added/edited on either the Registration and/or Assessment section, the same value should be copied over to both sections.
- “Challenges/Stressors” on the IEP section will be copied from Registration.

Additional validations have also been updated:

- If “Are you a veteran?” is marked as “Yes” on the Registration section, “Significant Barriers to Employment” will be mandatory.

Challenges or Stressors

Significant Barriers to Employment

Available

- No valid driver's license
- Unpaid student loan
- No reliable mode of commute/ transportation
- Lack of basic needs (e.g. food or utilities)
- No car insurance
- Have financial or credit issues
- Need child or dependent assistance
- No family / friend support
- Pregnancy
- Have special household needs

Chosen

Field cannot be left blank when "Are you a veteran?" question is selected as Yes

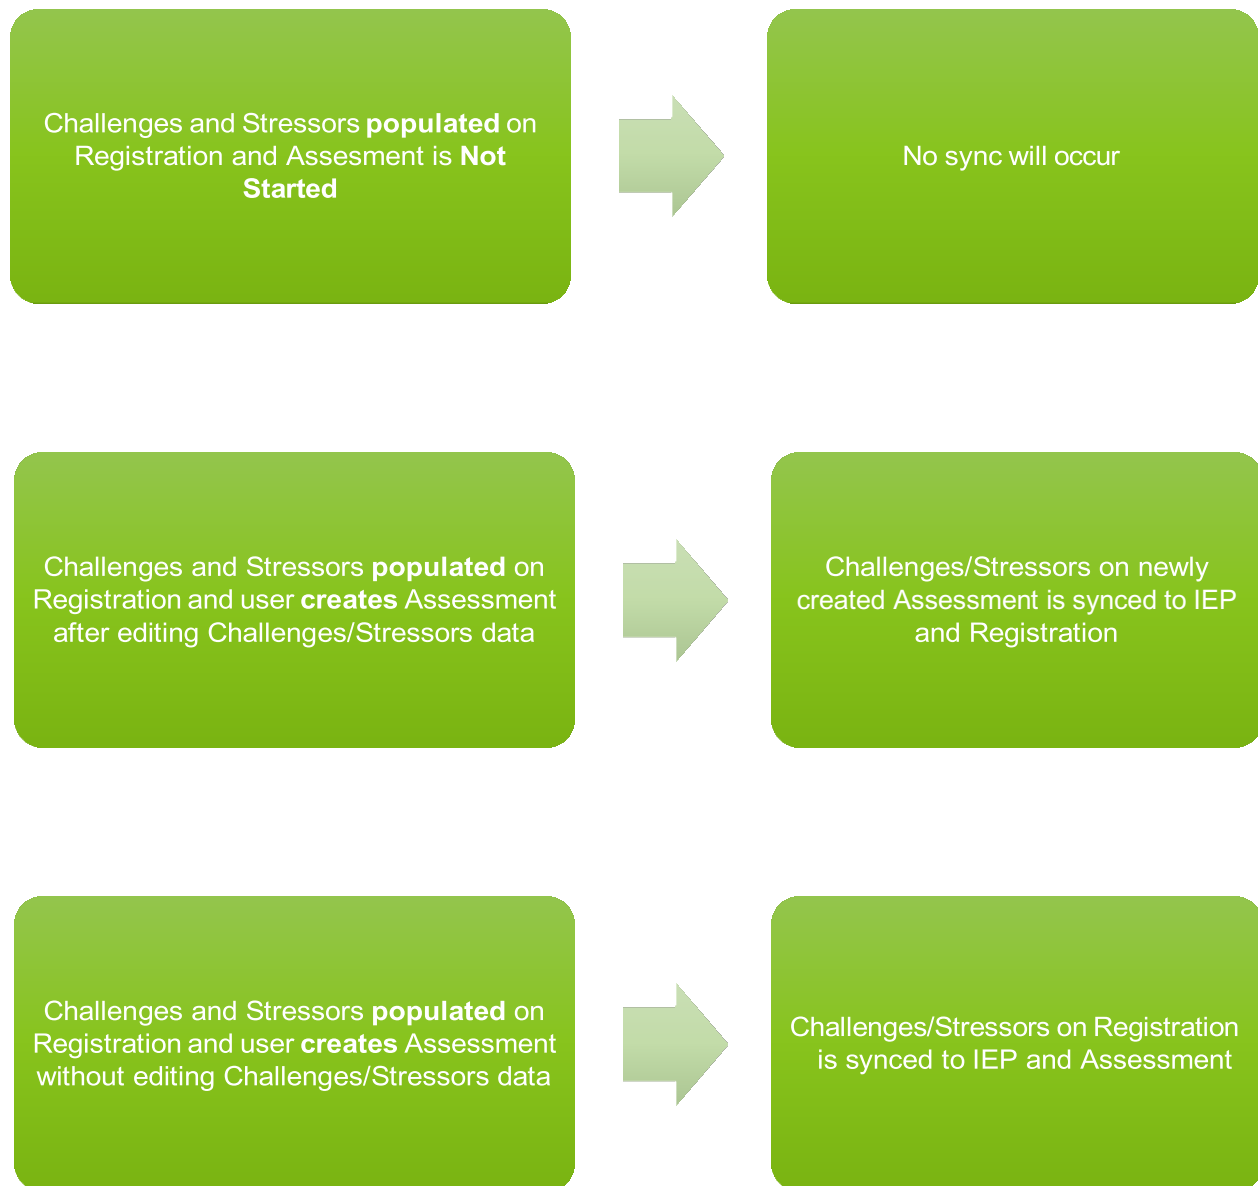

- The existing validation to restrict users from editing "Challenges/Stressors" on the Registration section if the Initial Assessment status is "In Progress" has been removed.

Note: Users will be able to edit Challenges/Stressors on both Assessment and Registration regardless of Assessment status. The same data will be synced across Assessment, Registration, and IEP.

Below are the updated scenarios on how Challenges/Stressors will behave when creating/editing the Registration and Assessment sections:

1.2.1.1 Create Scenarios

Challenges and Stressors is **blank** on Registration and Assessment is created with Challenges/Stressors data populated

Challenges/Stressors on Assessment is synced to IEP and Registration

1.2.1.2 Edit Scenarios

Challenges and Stressors **populated** on Registration and Assessment is **Not Started**

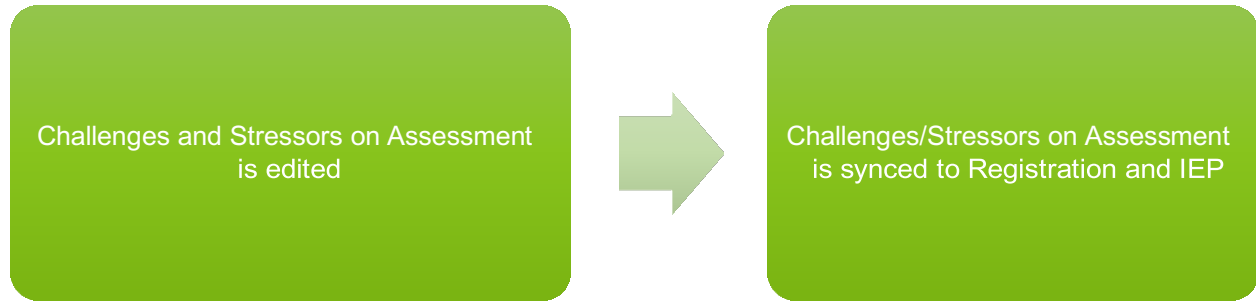

No sync will occur

Challenges and Stressors is **edited** on Registration and Assessment record is present for the workforce case

Challenges/Stressors on Registration is synced to Assessment and IEP

1.2 Staff Connect: Individual Details Information Sync on Closed Workforce Case

Currently, sync logic is implemented between the Individual Details and Workforce Case Registration screens such that individual details are synced anytime data is updated on Individual Details. However, this sync logic does not work if the Workforce Case is in the “Closed” status.

1.6.1 Slated KEE Suite Enhancement

Starting July 22nd, the sync logic will be updated to include Workforce Cases that are also in “Closed” status. The sync will be triggered only when the exit request is reverted.

1.3 Staff Connect: “Individual” Field on Activity Tracking Screen

Currently, the “Individual” field on the New Activity Tracking screen is a look-up field. Career Coaches must click on the field and search for the Individual for which the activity record is to be created for.

1.10.1 Slated KEE Suite Enhancement

Starting July 22nd, the following changes will be made to the “Individual” field on the Activity Tracking screen:

- “On the “New Activity Tracking” screen, if user selects the “Individual” name which is not matching with the Workforce Case already populated on screen, then a validation error will display on screen.
